Curious Conflict Between City Ordinances About Carrying Arms.

MOTORMAN HAWLEY HELD

CLEVELAND, Ohio, July 25.-After a night marked with disorder and rioting. this city this morning again presents a peaceful aspect. On all the various lines of the Big Consolidated system cars were started out on schedule time. Beyond the usual obstructions of stones, bricks and all kinds of rubbish placed on the tracks in the

traffic during the early hours of the day. Mayor Farley has been notified by Adjutant General Axline that troops to the number of nearly one thousand will arrive in Cleveland this afternoon to assist the local authorities in maintaining order.

Curious Case of Jurisdiction.

The carrying of arms by non-union met has given rise to a curious situation at the line which separates Cleveland from South Brooklyn, a small independent municipality on the south side of the river. The street car crews are allowed in the city to array themselves like walking arsenals, across the border the mayor of Brooklyn assisted by the town marshal and the con-stabulary, has taken steps which guard that suburb from armed invasion. The officers searched the crews of every car which came across the bridge, but found nothing. The men had taken the precaution to leave their revolvers on the Cleve-land side. On the return trip they again take possession of their weapons.

The resolutions adopted at the Newburg mass meeting last night protest against the carrying of arms by the street car em-ployes, pointing out that the presence of the military is ample protection to the men.

Hawley Goes to Jail.

Ralph P. Hawley, the non-union motorman who shot and killed Henry Cornzweit on Perry street yesterday, was arraigned in police court today on the charge of second degree murder. Attorney Tolles, on be-half of Hawley, requested a preliminary hearing before Police Judge Fielder on Tuesday next. Hawley was remanded to

Troops En Route to Cleveland.

COLUMBUS, Ohio, July 25.-A special Big Four train pulled out of the union station at 9:45 this morning with the 4th Regiment, Ohio National Guard, 400 men strong, bound for Cleveland to do strike

Captain Joe Walsh was in command, bu It is expected that Major John C. Speaks will be elected colonel en route. He will go to Cleveland on a later train, at which time Surgeon Taylor and the hospital corps will also go. At Wellington the regiment ex-pects to pick up the Norwalk company and at Delaware that company will be taken on

The regiment is made up of volunteers of he Spanish war, the Columbus companies having been on duty in Porto Rico.

Adjutant General Axline went with the train and will assume general command of the troops on duty.

The 4th Regiment is armed with Spring-field rifles and each man has ten rounds

of forty-five-caliber ball cartridges. Reinforcements Arrive. CLEVELAND, Ohio, July 25 .- The four Columbus militia companies, together with the military organizations from Newark and Chillicothe, 600 strong, arrived here today to reinforce the soldiers already or

guard to preserve peace during the street car strike. They were under the command of Capt James L. Walsh, although Adjt. Gen. H A. Axline was on board. Upon his arrival here he held a conference with Mayor Far-ley and the latter's cabinet in regard to the situation. He will exercise a general com-mand over all the troops at present in the

Mayor Farley, when seen by the Asso clated Press, refused to say whether or no, in view of the increased strength of the military guard, he would order the

non-union street railway employes to re-linquish their arms.

The Urbana and Zanesville companies, owing to the short time for preparation are not with the detachment which ar

rived this afternoon. They will probably come in tonight. The new conters were marched to Central Armory, where they established head-quarters. Their presence is very distasteful to the strikers, and Mayor Farley is cen-

sured by them for calling the additional troops. The latter reiterated his statement that he would keep the city free from rioting and violence if it took every soldier in

NEGROES TAKE STRIKERS' PLACES. Puddling Department of Etna Mill

PITTSBURG, Pa., July 25.-The puddling department at the Etna mill of Spang. Chalfant & Co., which has been shut down since July 1, on account of a strike of puddlers, resumed today with colored workmen. The strikers were not expecting the negroes, and there was no trouble when they were taken into the mill. Further difficulties are looked for at the

mill, as the finishers have threater quit work if black men were imported, and another strike may follow.

TEN THOUSAND TAILORS OUT. Strike in New York Assumes Big Pro

portions Today. NEW YORK, July 25 .- The strike of the taflors is hourly spreading and the men in less than 100 shops in the borough of Manhattan are at work today. The strike committee is making the rounds of these places to get the men out. In addition to the demands for increased pay and less hours of labor the strikers say that they have a fight against the professional leaders who they claim, run the socialist trade and labor alliance. The tailors declare that they are determined to have nothing to do with mer who have in previous strikes duned th A careful estimate made today by the ex-ecutive committee of the allied clothing makers' unions places the total number of

tailors now on strike in greater New York at nearly 10,000. The fact that the tailors are idle throws out of employment thou-sands of buttonhole workers bushelmen and lesser operatives.

MESSENGER BOYS' STRIKE GROWS. Company Officials Say They Are Not Inconvenienced.

NEW YORK, July 25.-The messenger boys' strike continued today with the ranks of the strikers augmented by boys from the force of the American District Telegraph Company. A large number of the postal telegraph messengers-nearly all employed in the banking district-are still out, and during the morning, as on yester-

lay, they paraded the downtown district, seeking to prevent boys from taking the

Acuteness of the Alaska Boundary Situation Relieved.

CHIEF NEGOTIATORS TO GO AWAY

They Feel That They Can Take Their Summer Outings.

CANNOT IGNORE CANADA

The acuteness of the Alaskan boundary situation has been much relieved as a result of the conferences yesterday between Secretary Hay and the British charge, Mr. Tower, so much so that those who have taken most active part in the negotiations feel that they can leave the city for a summer vacation. Mr. Hay will go away within a few days, and Mr. Tower leaves tomorrow night for Newport, where he will establish the British embassy for the rest of the summer. Mr. Hay will probably be in New England, so that if there is need of personal conferences they may be readily brought about, although it is felt that the negotiations have now got into a diplomatic channel where they can easily proceed by correspondence

Commission Cannot Meet August 2. One of the effects of renewing direct negotiations in Washington, after many weeks of fruitless exchanges at London, is to establish that the Anglo-American commission cannot reassemble in Quebec August 2. While the subject was up in London there was some chance of an agreement in time to permit the commission to get together at the appointed time, but since the negotiations came back to Washington, and are still in an unsettled state, there is no possibility of an agreement in time to bring the commission together on August 2. That date is only a week off, and as yet Great Britain has not named a commissioner to take the place of the late Lord Herschell, nor is there any preparation for the meeting in August.

The purpose now is to agree upon some mode of settling the boundary question and thus clear the way for a meeting of the commission late in the fall. The Strong Language at Ottawa. The strong language used by Sir Wilfrid Laurier and Sir Charles Tupper is confined thus far to parliamentary debate and has not found expression in the official nego-

tiations, which are proceeding with every outward evidence of good will. Owing to the important part Canada is taking in the proceedings it is well to know that the dealings of the Canadian premier are not with Washington, but with Lord Minto, the governor general of Canada, who in turn transmits the matter to London, where the imperial authorities shape the negotiations with due regard to the colonial as well as imperial interests.

Cannot Ignore Canada.

In this connection some of the comment of the American press as to the desirability of having Great Britain proceed without regard to the wishes of Canada is not shared in official quarters here, as it is recognized that Canada is the largest Britsh colony, and that any ignoring of interests which directly concern Canada would in effect be a repetition of the issue which brought about the separation of the United States from Britain. For this reaon it is recognized that the London authorities are being guided largely by those who are in official authority in Canada, as that affords the only means by which the colony can be represented in a negotiation which directly concerns it.

SENATOR M'COMAS CALLS

President McKinley and Mr. Elihu Root, who is to be the new Secretary of War, have held their first conference over the colonial problems which Mr. Root is to help

tary, and it was arranged that Assistant Secretary Meiklejohn should have charge of the conduct of the business of the department during the absence of Secretary Alger and pending the return of Mr. Root to take up the duties of his office. Matters relating to the business of the department were briefly referred to at the conference between Secretary Alger and Mr. Root, but the conference was too short to be of any the conference was too short to be of any special significance. It was expected that the bureau officers of the War Department would meet Mr. Root at the department today, but at his suggestion the meeting was deferred until he actually becomes Secretary. MORMON WOMEN COMING IN

NEW YORK, July 25 .- The hearing of the subcommittee of the United States industrial commission which is inquiring into the working of the immigration laws at this port was resumed today. The examination of Assistant Commissioner of Immigration Edward F. McSweeney was resumed.

Sweeney, "Is meant that immigrants are controlled by certain bankers after they come here: that the commissariat is regulated by these men; that the money of the immigrant is sent back to Italy by these bankers-if that is what we consider the padrone system, it still exists. The system reputed to have obtained years ago whereby the bankers induced these men to come here I do not think any longer exists, be-cause there is no need for it. They now come of their own accord. Before they come they know that by going to a certain banker they will find employment.
